Warranty Information

GearWrench Tool Storage Limited Warranty

If any GearWrench brand tool box is found to be defective in material or workmanship within a three year period, GearWrench will replace or repair the tool box at our option.

This warranty does not cover products that are damaged as a result through any misuse, abuse, accident, neglect, modification or mishandling.

GearWrench maintains a replacement parts program for items subject to normal wear and tear. See your Authorized GearWrench distributor for details or contact GearWrench Customer service for a complete service parts listing.
