

## PRODUCT SPECIFICATION REPORT

# FORMULA 9878™ Alkaline Powdered Hot Vat Stripper

### DESCRIPTION

Heavy-duty powdered alkaline compound formulated for use in hot vats to strip rust, many paints and primers, carbon, grease and grime from iron, steel, stainless steel magnesium and copper.

### FEATURES

- Versatile
- Inhibited
- Protects
- Brightens
- Non-acid

### BENEFITS

- Removes a wide variety of films, paints, and soils.
- Does not pit, embrittle or otherwise adversely affect iron, steel, stainless steel, copper or magnesium metals
- Inhibits flash rusting of cleaned iron and steel surfaces until permanent protection can be applied.
- When used to clean stainless steel, performs the additional function of actually brightening the metal surface.
- No specially lined vats required for solutions; no special ventilation when in use if area ventilation is adequate.

### APPLICATIONS

Ideal for automotive and heavy equipment rebuilders, industrial air conditioning and machinery rebuilders and maintenance garages using a hot vat or tank to remove rust, grease and grime
