3M™ DBI-SALA® Smart Lock Self-Retracting Lifelines

Our smartest SRLs yet.

3M™ DBI-SALA® Smart Lock Self-Retracting Lifelines

**Fewer unintentional lockups
—now that's smart.**

Unlock your productivity. From reducing unintentional lockups,* to simplifying inspections, every detail of the new 3M™ DBI-SALA® Smart Lock Self-Retracting Lifelines is designed to help increase your productivity and convenience.

Horizontal
(Leading Edge)

Feature-packed SRLs for horizontal or vertical applications

 **Swiveling anchorage & carabiner included**

 **Ergonomic handle**
Designed for easy transport and support during overhead installation.

 **Magnetic retraction control**
The lifeline rewinds at an evenly controlled pace, helping reduce the possibility for harm to people or equipment (compared to solutions with gear-based retraction).

 **Patent pending dual label system**

An extra label stored in the bumper on the lifeline allows users to easily access critical asset information and keeps it protected from damage to help reduce cost of ownership.

 **1,350 lb. Maximum Arresting Force (MAF)**

 **420 lb. weight capacity***

 **Highly-visible orange energy-absorber cover**
Identifies product as meeting Leading Edge standards and allows you to more easily confirm that workers are tied off (Horizontal models).

** Requires 6 ft. of fall clearance for 311 lbs. - 420 lbs. users*

3M's Science of Safety at work.

How did we create an SRL that reduces unintentional lockups? Using advanced motion capture technology, 3M studied the way users work, move and interact with SRLs on a typical job site. This data helped us engineer an arrest mechanism designed to better accommodate your natural work motions—resulting in fewer unintentional lockups.*

**Compared to our previous generation SRLs.*

Horizontal
(Leading Edge)

 **29%**

Fewer unintentional lock ups

Significant testing was completed to make this product work while reducing the unintentional lockups. Compared to our existing devices the new Smart Lock SRL locked up 29% less when tested against 422 work motion profiles.

Vertical
(Overhead)

As low as
4 ft.
fall clearance

**Complies with OSHA
1910.140 General Industry**

Helps protect general industry workers up to 310 lbs. from falls when working with as little as 4 ft. of fall clearance.

Unlock your productivity.
