SAFETY WARNINGS

WARNING				
				

This symbol is found on all of the SOPs included in this manual, as well as the product packaging for Mirka abrasives. Specific requirements for personal protective equipment (PPE) are presented in many different OSHA standards, published in 29 CFR.

Wear appropriate eye and face protection and ensure that the selected form of protection is appropriate to the work being performed and properly fits each worker exposed to the hazard.

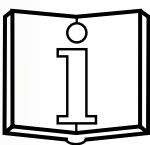

Use gloves specifically designed for the hazards and tasks found in the workplace. The nature of the hazard and the operation involved will affect the selection of gloves.

If engineering and work practice controls do not lower employee exposure to workplace noise to acceptable levels, employees must wear appropriate hearing protection.

Selecting the right respirator requires an assessment of all the workplace operations, processes or environments that may create a respiratory hazard.

Read and follow all instructions contained in Technical Data Sheets and User Manuals.

The User is responsible for determining whether the Mirka product is fit for a particular purpose and suitable for the User's application. The User is also responsible for complying with any applicable safety and health-related regulations and taking any safety and health-related precautions when using Mirka products. This includes, but is not limited to: wearing safety glasses, facemasks, gloves, and protective clothing, if necessary; following instructions and warning labels; and operating Mirka products safely including at safe operating speeds. By User's purchase or use of Mirka products, User acknowledges, represents, and warrants that User will: (a) comply with the foregoing; (b) assume all risks in connection with the use of Mirka products; and (c) read and understand the Mirka Warranty Policy.

Innovative solutions for marine finishing.

From start to finish, Mirka Abrasives offers a complete solution for marine surface finishing. Mirka produces abrasives for different applications as well as complete sanding systems for demanding conditions. We also market accessories suitable for our basic product range, such as polishing compounds, finishing sanders, vacuum equipment, sanding blocks and various other sanding accessories.

For over 25 years, Mirka Abrasives, Inc. has continually raised the performance bar through the development of innovative products and solutions for surface finishing. This Marine Finishing Guide will highlight Mirka’s abrasive and accessory product offering in the following format:

PERFORMANCE: Good / Better / Best / Unique

SOP - Brightwork Finishing

- Remove dirt nibs, runs or sags in clear topcoat finishes
- Produce level, high gloss finish

1. SAND

Gold P800, Microstar P1500

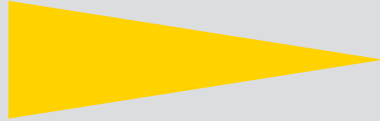

23-614-800, FM-614-1500

- MR-5V Sander (alt. CEROS 550CV)**
- 915GV20 Backup Pad**
- 1055F Interface Pad**

Level orange peel and any defects using Gold 800. Follow with 1500 grit (dry) using moderate speed.

The coating should "powder" when sanding. If you can not produce dust, then it is not dry enough to sand. Sanding too early risks producing "pills" which will damage the surface.

Microstar was designed to remove excess orange peel or other surface defects prior to polishing.

2. FINESSE

Abralon 3000

8A-241-3000

- MR-5V Sander (alt. CEROS 550CV)**
- 915GV20 Backup Pad**

Refine sand scratches using 3000 grit Abralon with a 50% overlap pattern (wet).

Spray the pad and surface with clean water. If too much is used, it will be evident by water "slinging" from the pad, and the abrasive will float over the surface with reduced cutting action.

5" GRIP DISCS

Gold 5" Grip Disc

	Grit	Wt.	Qty Per Pkg
23-614-800	800	C	50

Microstar™ 5" Film-Backed Grip Disc

3. BUFF

Polarshine® 10
 PC10-1L
MPADTW-7.5-1.5 Wool Pad
(7" Rotary Buffer)

Buff using PC10 compound in conjunction with a twisted wool pad (MPADTW-7.5-1.5) Use a slow speed (1,500 rpm) to prevent "burning" the finish.
 Keep the pad clean from compound build-up.
 (If unable to use twisted wool, you can substitute a lambs wool pad MPADLW-7.5)

4. POLISH

Finishing Compound 5
 FC5-1L
MPADBF-8 Foam Pad
(7" Rotary Buffer)

Polish using FC5 with a black foam pad (MPADBF-8).
 Use a slow speed (1,500 rpm) to prevent "burning" the finish.
 Wipe surface clean using a lint-free microfiber cloth.

SOP - Production Gelcoat Repair

- For blending and polishing sprayed-on gelcoat repairs.

1. HIGHLIGHT

Dry Guide Coat

9193500111 (black)
9193600111 (white)

Clean the surface to remove dust, dirt or other surface contamination. Never sand a dirty part.

Use a highlighter such as Guide Coat #9193500111 to show high spots when sanding.

The highlighter will be removed during the sanding process and show any surface defects that need to be repaired or removed.

2. SAND

Gold P400, P600, P800

5": 23-614-400, -600, -800
6": 23-611-400, -600, -800

5": **MR-5V Sander**
105SGV Backup Pad

6": **MR-6V Sander**
106SGV Backup Pad

Sand surface using a P400 grit abrasive and wipe surface clean using a micro fiber cloth.

Re-apply highlighter.

Sand using P600 grit abrasive, then P800 grit abrasive and wipe clean using micro fiber cloth.

SOP - Surface Restoration

- For removal of light scratches and oxidation from gelcoat finishes.

1. CLEAN

Microfiber Cloth

M-9915B

Using a suitable cleaner, properly clean the surface to remove dirt, wax, grease or any other contaminants from the gelcoat using a microfiber cloth.

2. SAND

Abralon® 1000

8A-241-1000

5": MR-5V Sander

105SGV Backup Pad

6": MR-6V Sander

106SGV Backup Pad

Refine sand scratches and remove oxidation using 1000 grit Abralon with a 50% overlap pattern (damp).

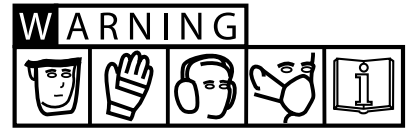

Spray the pad and surface with clean water. If too much is used, the abrasive will float over the surface with reduced cutting action.

6" GRIP DISCS

Abralon® 6" Foam Grip Disc

SOP - Solid Surface Finishing

- This process is designed as a starting point when finishing solid surfaces. Actual grit selection may be changed to meet customer specifications for surface appearance.

1. LEVEL

Abranet® P120

9A-241-120

**MR-608 Sander (6", 8mm orbit)
916GV15 Backup Pad**

Finish seams or level repair areas with a P120 grit abrasive.

To remove surface defects on repair areas, use a P120 grit (125 micron) abrasive (dry).

2. SURFACE PREP

Abranet® P180

9A-241-180

**MR-608 Sander (6", 8mm orbit)
916GV15 Backup Pad**

Use Abranet P180 grit (82 micron) to P240 grit (60 micron) abrasive (dry) to remove scratches and prepare for final surface finishing.

6" GRIP DISCS

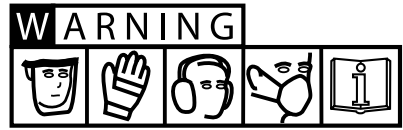

Abranet® 6" Mesh Grip Disc

	Grit	Wt.	Qty Per Pkg
9A-241-120	120	NET	50
9A-241-180	180	NET	50

Abralon® 6" Foam Grip Disc

8A-240-360	360	FOAM	10
------------	-----	------	----

3. FINISH

Abralon® 360

8A-240-360

MR-608 Sander (6", 8mm orbit)
916GV15 Backup Pad

Use Abralon 360 grit for matte finish.

For a satin finish, continue with 1000 grit.

For a gloss finish, continue with 2000 grit.

Remember to wipe the surface clean between steps to prevent contamination scratches.

Abralon may be used dry, or with a water mist for lubrication. Best results for high gloss finishes are achieved when Abralon is used wet.

4. CLEAN

M-9915B

Wipe dry using a microfiber cloth and inspect surface.

6" FINISHING SANDER

SOP - Topcoat Finishing

• To remove dirt nibs, runs or sags in topcoat finishes (color or base/clear coat).

1. SAND

Microstar™ P1500

5": FM-615-1500

6": FM-611-1500

5": MR-5V Sander

105SGV Backup Pad

1055F Interface Pad

6": MR-6V Sander

106SGV Backup Pad

1066F Interface Pad

Sand with 1500 grit (dry) using moderate speed.

The topcoat should "powder" when sanding.

Sanding too early risks producing "pills" which will damage the surface.

2. SAND

Abralon® 3000

8A-241-3000

5": MR-5V Sander

105SGV Backup Pad

6": MR-6V Sander

106SGV Backup Pad

Refine sand scratches using 3000 grit Abralon with a 50% overlap pattern (wet).

Spray the pad and surface with clean water. If too much is used, it will be evident by water "slinging" from the pad, and the abrasive will float over the surface with reduced cutting action.

106SGV	Grip Soft Faced Backup Pad	6" (5/16-24)	1

SOP - White Wood Finishing

- Ensures that the finish being applied will have good adhesion, uniform stain color and the desired look intended for the finished part.

1. IDENTIFY

Identify the type of wood you will be sanding. Harder species of wood require a more aggressive (coarse) grit. Softer ones, a less aggressive grit to achieve the same result.

2. SAND

Abranet® P120

9A-241-120

MR-6V Sander (6", 5mm orbit)

916GV15 Backup Pad

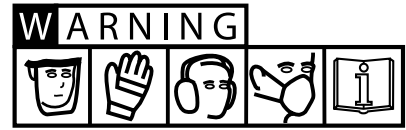

Use a random orbital disc sander or orbital pad sander with a P120 grit abrasive to remove saw marks or other surface defects.

6" GRIP DISCS

Abranet® 6" Mesh Grip Disc

	Grit	Wt.	Qty Per Pkg
9A-241-120	120	NET	50
9A-241-150	150	NET	50
9A-241-180	180	NET	50
9A-241-240	240	NET	50

3. REFINE

Abranet® P150, P180

9A-241-150, -180

**MR-6V Sander (6", 5mm orbit)
916GV15 Backup Pad**

Refine the scratches using the next finer grit of the abrasive. Always graduate one grit step at a time. (P120-P150-P180-P240)

If hand sanding, always sand in the direction of the grain using even pressure and uniform stroke length.

4. FINISH

Abranet® P240

9A-241-240

**MR-6V Sander (6", 5mm orbit)
916GV15 Backup Pad**

Complete the sanding steps until the surface has a smooth, uniform finish with Abranet P240 grit abrasive.

Lightly sand the edges of the part. The sanding process has created sharp edges. Smoothing or "easing" these edges will allow the finish to maintain a uniform film thickness for proper adhesion and appearance.

---------	-------------------------------	--------------	---

Product Overview

Abranet® HD Abrasives

- Excellent durability in the toughest sanding applications.
- Ideal for stripping bottom paint, gelcoat or other tough coatings.
- Can be used for light-duty grinding applications.

Available in grip discs, and grip rolls
Grit range: P40-P120

Abranet® Abrasives

- For sanding gelcoat, wood and painted surfaces.
- Patented net abrasive provides unequalled dust extraction when sanding with portable, self-generated or central vacuum systems.
- Removal of dust particles eliminates loading and pilling problems, while maintaining a cleaner work environment.
- Woven mesh backing works with hook and loop attachment.

Available in grip rolls, grip sheets and grip discs
Grit range: P80-P1000

Microstar® Abrasives

- Premium, film-backed abrasive discs are ideal for removing surface defects in gelcoat, single stage topcoat and clear coat finishes.
- Produces a uniform scratch pattern that is easily removed when polishing.
- Resists loading and pilling to prevent unwanted scratches.

Available in grip discs
Grit range: P800-P1500

Mirlon Total® Nonwoven Abrasives

- Designed for fine sanding, cleaning and pre-finishing of surfaces.
- Features an aggressive cut rate with a very consistent scratch pattern.
- Ultra-flexible pads are ideal for use on contoured shapes and intricate details.

Available in pads and rolls
Grit range: P360, P1500, P2500

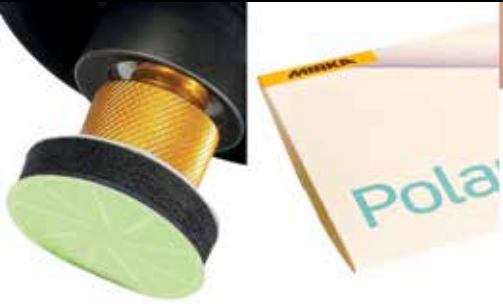

Abralon® Abrasives

- Grip backed foam discs feature an abrasive-coated woven fabric face.
- Designed for pre-polishing of gelcoat and painted surfaces.
- Can be used to remove heavy oxidation from aged gelcoat.
- Foam discs work especially well when sanding curved and contoured surfaces, corners and edges.

Available in grip discs
Grit range: 360-4000

Polarstar® SR Abrasives

- Designed for spot repair of dirt nibs or other surface defects in topcoat finishes.
- Allows for repair of small areas, without the need to sand the entire surface.
- Produces a scratch pattern that is easily removed by polishing.

Packaged in packs of 100 or rolls of 500

Grit range: 3, 5 and 7 micron

Polarstar® Abrasive Discs

- Fast-cutting silicon carbide abrasive reduces sanding time for surface finishing.
- Designed for use on hard painted surfaces and tooling gelcoat.
- Offers excellent durability and resistance to clogging.
- Film-backed discs are suitable for both wet and dry sanding.

Available in grip discs

Grit range: P600 - P1500

Q.Silver® Abrasive Discs

- Premium abrasives for applications ranging from metal, wood and fiberglass to topcoat sanding.
- Fast cutting abrasives have advanced non-loading properties for long life.
- Aluminum oxide grain from P80-P400, silicon carbide from P500-P1500.

Available in discs, rolls and file sheets

Grit range: P80 - P1500

Bulldog Gold Abrasives

- Industry-standard performance for heavy stock removal through final finishing of metal, wood, gelcoat and painted surfaces.
- Heat-treated aluminum oxide delivers a fast, long-lasting cut.
- A special stearate coating is used to maximize resistance to clogging and loading.

Available in discs, sheets and rolls

Grit range: P36-P800

Basecut® Abrasives

- An economical solution blending price and performance for general purpose sanding applications.
- Provides an aggressive initial cut with resistance to clogging and loading.
- Available in a full grit range from P40 through P1500

Available in discs, sheets and rolls

Grit range: P40-P1500

Product Overview

Coarse Cut Abrasives

- Aggressive, fast cutting abrasives for sanding bottom paints, gelcoat or other tough surfaces.
- Heavy-weight paper backing provides durability for demanding applications.
- Flexible product has superior grain retention and edge wear than competitive products.

Available in discs and file sheets
Grit range: P40-P150.

Mirlon Nonwoven Abrasives

- Designed for cleaning, fine sanding and pre-finishing.
- Very flexible for use on contoured surfaces.
- Can be used wet or dry.
- Ideal for removing marine growth from propellers without damaging metal.

Available in scuff pads, disc and rolls
Grit range: Very Fine and Ultra Fine

Hiolit Abrasive Discs

- Designed for maximum performance in tough sanding applications.
- Rigid cotton cloth backing is highly tear-resistant.
- Removes material quickly, while producing a high quality surface finish.
- Delivers an exceptionally long lasting cut.

Available in cloth discs
Grit range: 60-400

Waterproof Abrasives

- Waterproof product with flexible resin bond.
- Consistent and precise manufacturing process provides fine scratch pattern for improved finish.
- Designed for wet sanding by hand.

Available in sheets and finessing discs
Grit range: P220-P2500

Polarshine® Polishing Compounds

- Polishing compounds for removal of scratches from P800 and finer.
- Permanently removes sanding scratches and swirl marks while rapidly producing a high gloss finish.
- Products can be used by hand or machine application.

Includes compounds, polishes and pads.

Random Orbital Sanders

- Mirka's pneumatic finishing sanders are constructed of precision molded composites for strength and durability, while reducing operator fatigue. This construction also reduces sound for increased comfort.
- Each model is counter-balanced for its specific size backup pad for high speed performance with minimal vibration - for maximum productivity.
- Features moisture-resistant composite rotors, and premium counterweight bearings for long life and superior reliability.
- Finishing Sanders can be converted to vacuum operation with the addition of a conversion kit.

Available in 1-1/4", 3", 5" and 6" diameter

Orbital Sanders

- 10,000 rpm air motor features composite rotor and blades for long-lasting performance with increased resistance to moisture in air supply.
- Vacuum-ready for use with central or portable dust collection systems using threaded 3/4" O.D. vacuum hose.
- 3mm orbital action sands quickly, and provides a uniform surface finish.

Available in 3"x 8" and 3"x 4" pad sizes

Mirka® CEROS

- Mirka®CEROS electric finishing sanders are half the size and weight of competitive sanders but have almost twice the power.
- Powerful - maintains constant speed under load.
- Quiet operation.
- Vacuum-ready for dust-free sanding.
- Low profile for enhanced control.
- One-hand operation for less fatigue.
- Brushless DC motor has longer life than standard electric motors.

Available in 5" and 6" diameter

Two-Handed Sanders

- Heavy duty sanders can be configured for one or two-handed operation for aggressive sanding applications.
- Mirka's pneumatic sanders are constructed of precision molded composites for strength and durability, while reducing operator fatigue.
- Each model is counter-balanced for its specific size backup pad for high speed performance with minimal vibration - for maximum productivity.
- Features moisture-resistant composite rotors, and premium counterweight bearings for long life and superior reliability.

Available in 5" and 6" diameter

Dust Extractor

- Variable power vacuum control powerful enough for use by multiple users with the optional dual-operator fitting.
- SilentPower motor for performance that is seen, but not heard.
- Integrated 400W outlet with Automatic On/Off vacuum control for use with an electric tool.
- Optional control box for Automatic On/Off vacuum control with pneumatic sanders.
- Vacuum hoses are available in conventional styles for use with hand blocks and electric sanders, and coaxial styles (with integrated air hose) for use with pneumatic sanders.

Commitment to quality

MIRKA WARRANTY POLICY
(EFFECTIVE: December 1, 2012)

Warranty

Mirka Abrasives, Inc. (“Mirka”) warrants that the following Mirka products will be free from defects in material or workmanship from the date of purchase for the time period indicated:

- a. CEROS electric tools: 3 years
- b. Pneumatic tools: 1 year
- c. All other tools and products: 1 year

Terms and Conditions

The purchase of any Mirka product will constitute and be deemed to be acceptance of and agreement to the Mirka Warranty Policy (“Policy”) by the purchaser and/or user (collectively “User”) of any Mirka product.

The Policy shall not apply to:

- Normal wear and tear; or
- Product failure or damages caused by:
 - Subsequent modification of the Mirka product;
 - Repairs attempted or made on the Mirka product other than by Mirka;
 - Misuse, abuse or neglect;
 - Careless or unsafe handling;
 - Failure to follow any applicable instructions for the Mirka product; or
 - Anything other than defects in material or workmanship.

Mirka’s sole obligation under this Policy shall be, at Mirka’s option, to: (1) repair or replace any Mirka product that is defective in material or workmanship; or (2) refund the purchase price of the Mirka product that is defective in material or workmanship.

The User is responsible for determining whether the Mirka product is fit for a particular purpose and suitable for the User’s application. The User is also responsible for complying with any applicable safety and health-related regulations and taking any safety and health-related precautions when using Mirka products. This includes, but is not limited to: wearing safety glasses, facemasks, gloves, and protective clothing, if necessary; following instructions and warning labels; and operating Mirka products safely including at safe operating speeds. By User’s purchase or use of Mirka products, User acknowledges, represents, and warrants that User will: (a) comply with the foregoing; and (b) assume all risks in connection with the use of Mirka products.

No agent, representative, employee, distributor or dealer of Mirka is authorized to modify this Policy or to issue any warranty regarding any Mirka products.

Any civil action against Mirka relating to or arising out of the sale of Mirka products shall be commenced within one (1) year of the date the cause of action accrued or otherwise the cause of action shall be barred.

Disclaimer

EXCEPT FOR THE PROVISIONS OF THIS “WARRANTY,” MIRKA EXPRESSLY DISCLAIMS ALL GUARANTEES AND/OR WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND ANY IMPLIED WARRANTY ARISING OUT OF A COURSE OF DEALING, CUSTOM OR USAGE OF TRADE.

Limitation on Liability

MIRKA’S LIABILITY FOR ANY LOSS OR DAMAGE ARISING OUT OF OR RESULTING FROM ANY BREACH OR DEFAULT BY MIRKA IN CONNECTION WITH THE SALE OF MIRKA PRODUCTS HEREUNDER SHALL NOT EXCEED THE PURCHASE PRICE THEREOF, REGARDLESS OF WHETHER SUCH LIABILITY ARISES IN CONTRACT, TORT (INCLUDING, WITHOUT LIMITATION, STRICT LIABILITY) OR OTHERWISE.

IN NO EVENT SHALL MIRKA BE LIABLE FOR LOSS OR DAMAGE ARISING FROM THE MIRKA PRODUCT, WHETHER DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OF ANY KIND REGARDLESS OF THE LEGAL THEORY ASSERTED, INCLUDING, WITHOUT LIMITATION, WARRANTY, CONTRACT, NEGLIGENCE OR STRICT LIABILITY.
