

XHD PHILLIPS® SCREWDRIVERS W/HEX BLADES & BOLSTERS

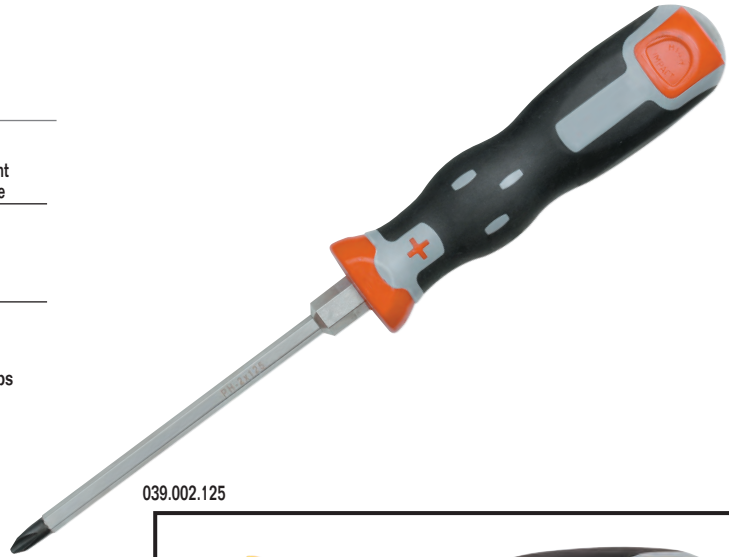

Premium Comfort Grip Handles and Blades

Product Code	Overall Length (Inches)	Blade Length (Inches)	Point Size
039.001.100	8 ½	4	#1
039.002.125	10	5	#2
039.003.150	11 ½	6	#3
039.004.200	13 ½	8	#4

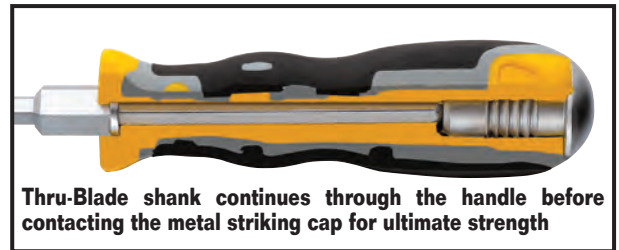

** Dual grip handle for two-handed operation provides extra torque when necessary

Features

- Metal striking cap at top of handle gives ultimate protection during jobs requiring high impact and added force
- Thru-Blade shank continues through the handle before contacting the metal striking cap for ultimate strength
- Elastomer surface and double shaped handle for added comfort and maximum turning power
- Rudolite® plastic provides high impact resistance to the tool and a perfect joint between the handle and shank
- Black oxide tips prevent chipping of chrome to reduce possible contamination at work location

039.002.125

Thru-Blade shank continues through the handle before contacting the metal striking cap for ultimate strength
