Heat Stress Kit

OSHA[®]

OSHA launched an indoor and outdoor heat-related hazards enforcement program on **April 8, 2022** to increase OSHA inspections in over 70 indoor and outdoor highrisk industries.

 **FIRST AID ONLY[®]**

Heat Stress Kits

Heat is the most dangerous weather condition¹

Extreme heat is more deadly than natural disasters, hurricanes, tornadoes, earthquakes, and floods combined! Heat stress injuries are preventable with the right preparation and best practices.

First Aid for High Temperatures

1	Emergency Blanket
2	Waterproof Tape, 1/2" x 5yd
2	Emergency Waterpacks, 4oz

Heat Illness Can Be Deadly

During hot weather, especially with high humidity, sweating isn't enough. Body temperature can rise to dangerous levels if you don't drink enough water and rest in the shade. You can suffer from heat exhaustion or heat stroke. Heat illnesses and deaths are preventable.

OSHA Employers Must Protect Workers from Excessive Heat Injuries

Under OSHA law, employers are responsible for providing workplaces free of known safety hazards. This includes protecting workers from extreme heat. Working in full sunlight can increase heat index values by 15 degrees Fahrenheit. Keep this in mind and plan additional precautions for working in these dangerous conditions.

91148

OSHA Compliant Snake Bite Kits 3027 Fabric Pouch 3" x 4" x 1.75" **PIECES 9** 7103 Unitized Box, w/Plastic Carry Tube 4" x 2.5" x 1.25" **PIECES 9**
