

# V-Gard C1™ Hard Hat

The coolest hard hat on the market, keeping the inside of your hard hat up to 20°F cooler.

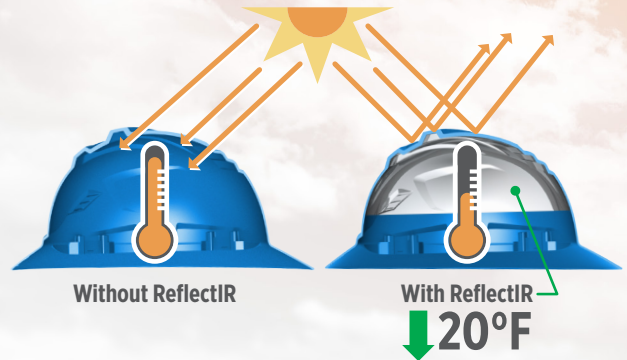

**WE KNOW WHAT'S AT STAKE.**

## ReflectIR™ Thermal Barrier

The patent-pending ReflectIR™ Thermal Barrier works to block the energy of the sun, keeping the inside of the hard hat up to 20°F (11°C) cooler<sup>1</sup>, reducing the risk of heat stress.

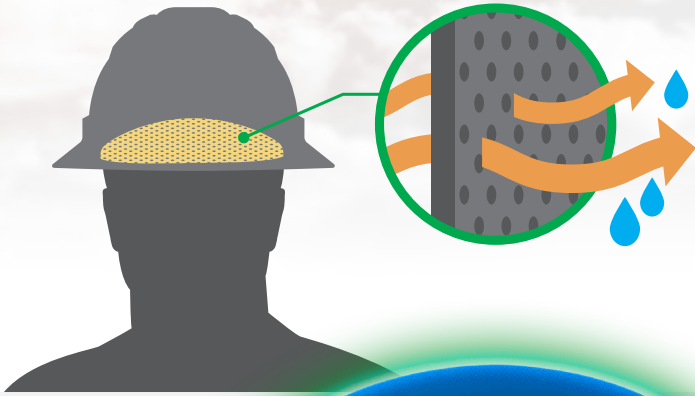

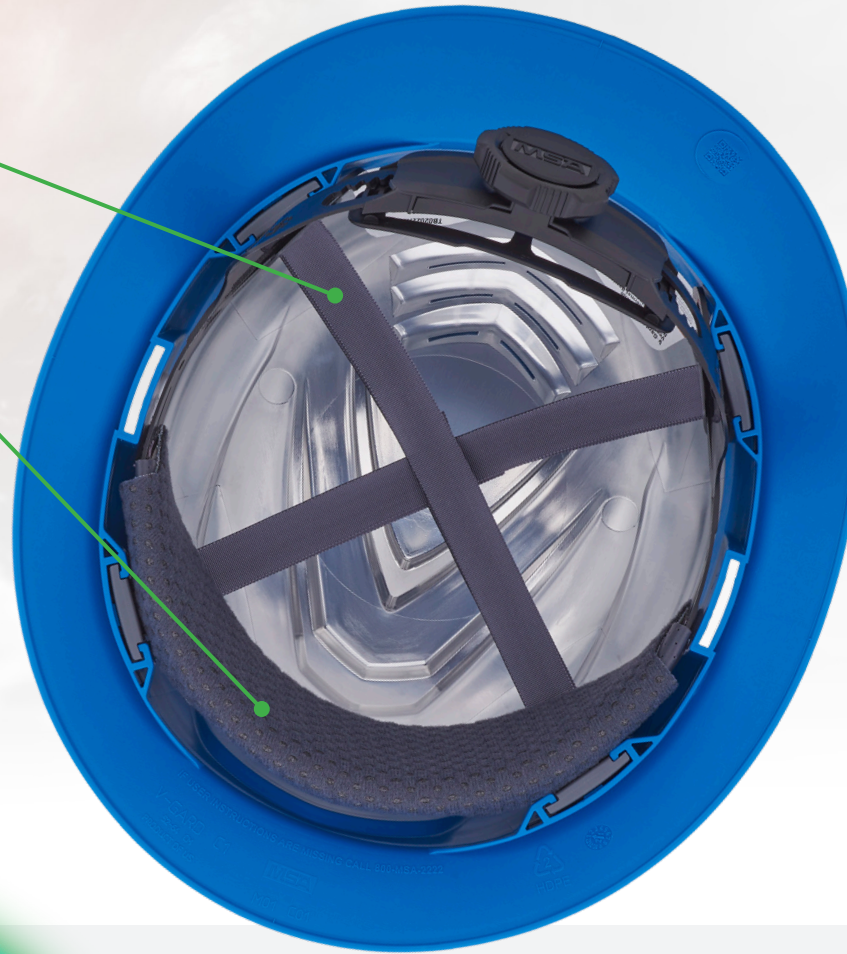

## Available with the Largest Vents MSA Offers on a Full-Brim Hat

- Strategically placed vents optimize airflow, increasing comfort and further reducing heat stress.
- Non-vented options available to maintain Class E Certification

<sup>1</sup> Compared to a hard hat without the ReflectIR Thermal Barrier in sunny conditions; testing done with black, non-vented, V-Gard C1 Hard Hats

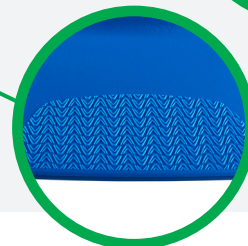

## Increased Comfort

- The market-leading Fas-Trac® III Suspension comes preinstalled, providing the highest level of customization and comfort you depend on from MSA head protection.
- The premium moisture-wicking sweat band pulls sweat away from the head allowing it to evaporate into the air, while providing a breathable foam padding, keeping you dry and comfortable. The sweat band can be easily removed to be laundered or replaced to help maintain hygiene.

## Increased Sun Protection

- The full brim on the V-Gard C1 Hard Hat offers 12% more coverage<sup>2</sup>, providing additional shade while protecting you from harmful UV rays.
- Unique textured brim provides added grip when donning and doffing the hard hat.

<sup>2</sup> Compared to a full-brim V-Gard® or V-Gard 500 Hard Hat

## Specifications
