- MACHINE WASHABLE

Feedback

CASE PACK – Includes 144 Pairs of Sleeves

The ProFlex® 7941 Hi-Vis Cut-Resistant Protective Arm Sleeve offers level 4 cut protection with a breathable, moisture-wicking material. This A4 cut-resistant Sleeve is an innovative, first-of-its-kind sleeve that provides protection from cuts and slashes while incorporating moisture-wicking fibers to keep workers cool.

These cut-resistant sleeves feature TenaLux™ yarn, which provides ANSI A4 cut protection without fiberglass or steel for non-irritating comfort. The yarn also is lighter weight and more breathable than traditional fiberglass, steel cut and Kevlar sleeves. TenaLux™ has a cool-to-the-touch feeling while being supremely wicking for all-day comfort.

Not only are these breathable cut-resistant sleeves designed with a lighter weight yarn, but they also feature moisture-wicking fibers to keep sweat off the skin to provide a cooler more comfortable cooling arm sleeve.

This moisture-wicking long sleeve is best for workers in construction, demolition, glass handling, fabrication and many others.
