OBJECTS AT HEIGHTS SAFETY.**

PROUDLY SETTING A HIGHER STANDARD IN AT-HEIGHTS SAFETY

ANSI/ISEA 121 DROPPED OBJECTS STANDARD

We've teamed with the International Safety Equipment Association (ISEA) and a select few in the industry to release a new standard in at-heights safety — establishing minimum design, performance/testing and labeling requirements for equipment solutions that prevent dropped objects.

WHAT WILL THE DROPPED OBJECTS STANDARD COVER?

ANCHOR // TOOL ATTACHMENTS

TOOL TETHERS // LANYARDS

BUCKETS // CONTAINERS

237 DEATHS. 45,940 INJURIES. AND NO TIME LEFT TO DELAY.

More and more workers are finding themselves ascending to heights in all industries, and along with them, the tools and equipment necessary to do the job. Join us in setting a higher standard in at-heights safety with innovative solutions, immersive education and a proactive game plan to stop drops and the damage done.
