Reflect the heat.

3M™ Radiant Heat Accessories for
select 3M™ Versaflo™ M-Series
Respiratory Helmets

#3MScienceOfSafety

Aluminized jacket is not a 3M product offering.

Head and shoulders protection from radiant heat.

Now you can increase the utility of your 3M™ Versaflo™ M-307 or M-407 Respiratory Helmet – by adding integrated protection for head, neck and shoulders against radiant heat, sparks and splashes.

Helps reduce exposure to radiant heat, sparks and splashes

- ▶ 3M™ Radiant Heat Accessories have a low profile, designed specifically for use with select M-Series Helmets.
- ▶ The 3M™ Radiant Heat Covers, when used in combination with the 3M™ M-967N Gold Over-visor, offers 360° coverage of the 3M™ Versaflo™ M-307/M-407 Helmets, as well as protection against radiant heat and sparks/splashes.

Modular, for ease of use

- ▶ Radiant Heat components are modular, allowing multiple combinations and different coverage options in tough environments.
- ▶ The 3M™ Over-visor is designed to flip up, allowing the user the flexibility to have tinted IR/UV protection when needed, as well as the peace of mind of clear vision when not required.

3M™ Radiant Heat Accessories for 3M™ Versaflo™ M-307 and M-407 Series Helmets

The 3M™ Versaflo™ Radiant Heat Accessories are designed as a modular system, so you can customize coverage levels for tough environments.

Key Features and Benefits:

- ▶ Designed to be robust and durable to withstand some of the harsh environments experienced in the metal production industry.
- ▶ Intended for use on select M-Series helmets, which are compatible with a wide variety of 3M air sources.

Typical applications:

- Metalworking
- Foundries
- Glass manufacturing
- Ceramic / porcelain manufacturing
- Refractories

Gold Over-visor helps protect against UV/IR and against sparks and splashes. Full length 19.69" x 9.84". For use with 3M™ Versaflo™ Over-visor Frame M-961N.

Optional 3M™ Versaflo™ Breathing Tube Radiant Heat Cover BT-927N is highly durable – helps extend the life of the breathing tube.

M-307 with M-967N Radiant Heat Cover

Low profile, designed specifically for 3M™ Versaflo™ M-307/M-407 Respiratory Helmets.

M-967 Gold Over-visor

Adaptable – the modular radiant heat cover and over-visor allow the user to select and standardize the components required to adapt to their needs.
