

# PRODUCT SPECIFICATION REPORT

Zarathon is an extremely durable, high solids acrylic copolymer, metal interlock, high gloss finish designed for ultra-high speed burnishing. It is also formulated with unique components to reduce objectionable odors during application.

## ZARATHON

PROD.#1137

High Solids, Low Odor, "Wet Look" Floor Finish for Ultra-High-Speed Burnishing

### FEATURES/BENEFITS:

High Gloss	Zarathon dries to a brilliantly clear "wet look" with enhanced depth of gloss, especially with occasional UHS burnishing.
High Solids	This product contains 25% acrylic copolymer solids for fast build and deep gloss.
Burnish Response	Zarathon has excellent response to UHS burnishing, to give that "wet look"
Durable	This product is resistant to scuffs and black heel marks.
Easily Maintained	Dust mopping and damp mopping with pH Perfect is all that is regularly required. Burnish Boost may be used once-per-week to enhance burnish response.
Easy to Apply	This product levels well with no streaks or mop trails.
Easy to Strip	Zarathon can be easily removed with Time Saver or Strip-Ease.
Economical	One gallon covers 2000-2500 square feet.
Slip-resistant	Zarathon meets or exceeds Slip Resistance Standards (when properly maintained) established by CSPA and UL as tested in accordance with ASTM D-2047.
Low Odor	This product is formulated with low odor components leaving a pleasant citrus fragrance behind

### APPLICATIONS:

Use on most types of floor surfaces, including rubber, asphalt tile, vinyl, cork, vinyl composition, sealed terrazzo, etc. Particularly useful in: airport terminal services, nursing homes and hospitals, operators of apartment buildings, hotels and motels, schools and educational services, sports and recreation clubs, child day care services, department stores, and eating and drinking establishments.
