

classiX® all-steel bar clamps

Bar clamps for industrial application

Simply better.

An opening price point offering that embodies the stringent quality requirements of BESSEY®.

Features & Benefits

■ Choices

The classiX® line is an abbreviated range of the most popular global clamp performance characteristics. A variety of throat depths, pad/swivel styles and clamping capacities provide professionals with a choice that makes sense for real-world applications.

■ Quality

Internationally sourced components coordinated by BESSEY® quality control and engineering departments ensure great prices and great quality.

■ Standard pads and heavy duty pads

The standard swivel pads and heavy duty pads are tried and true contact surfaces for use with your classiX clamps. Field replaceable.

■ Hardened spindle

Heat-treated, high carbon Acme threaded spindle is manufactured to offer high load capacity, durability and spatter resistance.
